

GOpus® Amazon Interface

Interface for SAP connection to *Amazon Vendor Central*

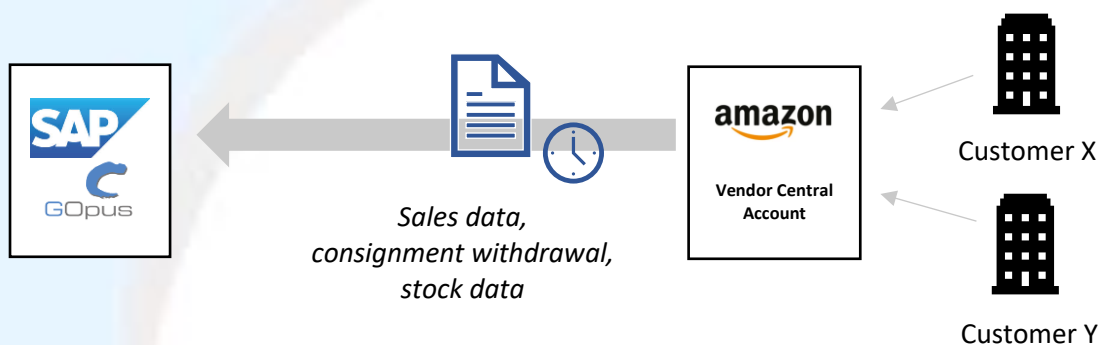

Your request

When selling finished goods via Amazon, your company acts as a supplier from Amazon's perspective. For this purpose, Vendor Central is the communication platform with Amazon. By adding the goods to Amazon's portfolio, another lucrative distribution channel and numerous marketing opportunities are made available.

Our solution

With the **GOpus® Amazon Interface** SAP customers who have agreed on consignment processing with Amazon can retrieve and upload sales data from the Amazon Vendor Central at regular intervals.

Retrieving the stock quantities generates a SAP-side consignment issue. It is also possible to reconcile consignment stocks.

Your benefits

- ✓ Direct consignment issues in SAP
- ✓ Overview of sales data in SAP
- ✓ Connection of the consignment stock sold via Amazon
- ✓ Simplified reconciliation of consignment stocks
