

GOpus® Internal Stock Transfer

Add-On for the connection of external warehouses/logistics service providers in SAP

Your request

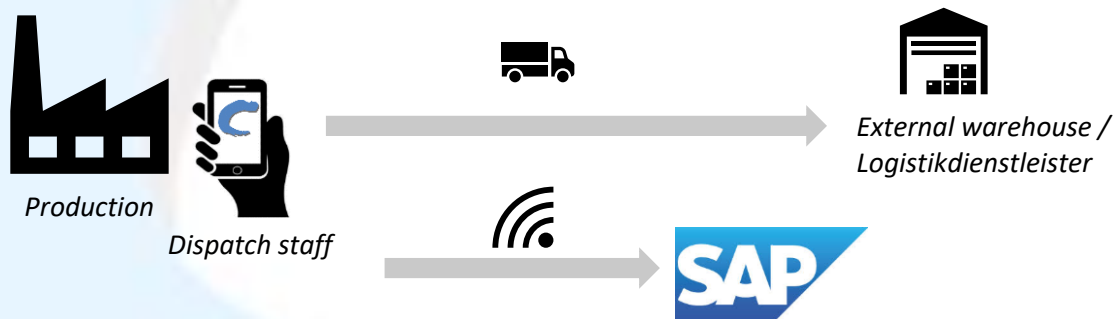

Sophisticated logistics concepts with automated and seamless integration of central and regional warehouses and external service providers form the basis for a successful supply chain. The connection to your external logistics service provider requires simple and fast delivery processing, ideally implemented by shipping employees.

Our solution

With our SAP Add-On **GOpus® Internal Stock Transfer** your deliveries to the contract logistics provider are fundamentally optimized and automated. Every stock transfer process from the production plant to external warehouses can be realized by the solution both via its SAP GUI and via mobile devices (handhelds).

In concrete terms, the **GOpus® Internal Stock Transfer** solution allows the digitalization and mobilization of the following processes by the optimal use of SAP standard functions via handhelds:

- ✓ Automated creation of HUs through packing instructions
- ✓ Goods receipt for HU by scanning
- ✓ Label printing for the HU
- ✓ Shipping processing by scanning the HU
- ✓ Automatic generation of delivery documents after complete loading
- ✓ Printing the shipping documents
- ✓ Automatic shipping notification via EDI

Your benefits

- ✓ Automation of essential, manual SAP transactions
- ✓ Minimization of error susceptibility during the delivery process
- ✓ Improved stock quality
- ✓ Cost optimization through acceleration of the delivery process
