VOC Content

Products: **Splittbinder K 102**

Directive 2004/42/EC of the EUROPEAN PARLIAMENT and of the COUNCIL on the limitations of emissions of volatile organic compounds (VOC) due to the use of organic solvents in decorative paints and varnishes and vehicle refinishing products and amending Directive 1999/13/EC defines VOC as any organic compound having an initial boiling point less than or equal to 250°C measured at a standard pressure of 101,3 kPa.

Application of this definition and limitation to the products listed above yield an expected VOC level of < 0,02%.
